Azkar obtains the Lógica certification.

Azkar, the lead logistics provider for the Iberian Peninsula and the Islands, according to its politics of constant improvement, has achieved the LÓGICA certification. This certifies companies that meet the standards established in the Code of Good Practice of *LÓGICA*. Azkar takes its commitment to quality and respects the principles of the Code with which it has tried to establish a common policy framework for the sector that offers guarantees to all parties involved in the logistics process as well as common rules for all operators under the same conditions when competing.
