Bilbao received the National Award for Best Project of the Year on the Transport of Goods.

Bilbao has received the National Award for Best Project of the Year on the Transport of Goods, awarded by the National Association ITS Spain, by the European Project Freilot. This initiative, promoted by the city of Bilbao and the Transportation and Logistics Cluster of Euskadi with the goal of reducing by 25% CO2 emissions, also aims to reduce the hassles of traffic, parking spaces win for residents and reduce noise, getting a city cleaner and less congested, as reported by local sources. They are part of the Consortium Freilot, Erotic ITS Europe-leading project-the city of Bilbao, the Transportation and Logistics Cluster Euskadi, Basque different transport companies, including Transport Azkar.
