The EC set a pricing "obligatory" for heavy vehicles by 2016.

Vicenç Pedret, advisor to the Department of Mobility and Transport of the European Commission (EC) yesterday announced in Madrid that the plans of the Commission is the implementation before 2016 of a "mandatory" pricing for heavy vehicles freight. In his portfolio is planned, before 2016, the "gradual introduction of a mandatory minimum common pricing for heavy vehicles" in all countries of the European Union and providing for the internalization of external costs incurred in the maintenance of infrastructure, noise and pollution.
