**The demand for logistics space in Catalonia over 300,000 square meters, according to consultancy Estrada & Partners.**

According to the Research Department of the company Estrada & Partners, the demand for logistics space in Catalonia since the beginning of the year already represents 303 300 m<sup>2</sup>. This corresponds to the 29 existing demands at the moment. The biggest portion focuses primarily on the third crown (44 51%), located in the triangle Vilarodona-Tarragona-Valls, mostly by firms seeking to hire top surface logistics over 10,000 m<sup>2</sup>.
