Traffic of TEUs by train in Barcelona grows 46% untill August.

The Barcelona port has transported 59,718 TEUs by rail untill August 2010, figure which represents an increase of 46% respect to the same period last year, when were moved 40,850 TEUs. Loading and unloading have remained within very similar values, with 29,852 and 29,866 TEUs respectively, which implies a load increase of 38% and 55% compared with unload during the last year.
