Transportation sector ended 2010 with growth.

Transportation sector in Spain has ended 2010 with a growth of 2.9%, recovering part of previous year's losses, when it decreased 13%. In any case, the market situation was not homogeneous, but it was in May when the sector as a whole began to overcome their situation. In fact, at the end of the year, the increase was higher than the whole of 2010, having grown by 4.6% in December.
