Transport prices go up while activity decreases

Transport prices increased 5,3 % in the second quarter of 2011 over last year's same Period, according by the Ministre of Public Works. That figure rose to 5.6% in the case of transport over distances exceeding 300 kilometres. At distances between 51 and 100 kilometres prices rose 1.3% while between 101 and 200 kilometres, the increase was 2.7%.
